

Site's Submission Reports

Here is the detailed report of submissions, Pinging task also completed! Sites have been sent to all search engines listed on report and approved sites will add your site on databases in 3 to 120 days. Huge search engines will take like 3 months to list you under your keyword as they do not update their site directory daily. Only newer smaller engines are checking submission reports daily. This submission will get your site on those search engine result pages faster.

Search Engines May Take Up To 90 Days To Process Into Search Engine Results
